

SIGNET SOLAR GmbH PRESS RELEASE (ENGLISH TRANSLATION)

Dresden, February 28, 2008

SIGNET SOLAR SIGNS LONG TERM SUPPLY CONTRACT WITH ALFASOLAR

Thin film module manufacturer Signet Solar signs supply contract with Solar System Integrator alfasolar to supply silicon thin film solar photovoltaic modules

Signet Solar and alfasolar announced today that the two companies have signed a framework agreement for the supply of thin film modules with a total output of 24 MWp till 2011. The thin film modules supplied by Signet Solar will be installed in large solar projects developed and operated by alfasolar.

"alfasolar is a leader in the solar sector and we look forward to partnering and growing with them over the long term," explained Gunter Ziegenbalg, Managing Director of Signet Solar. "alfasolar is one of the first companies to include our modules in their product portfolio, an acknowledgment of the lower cost of thin film modules for solar farms and the progress made by Signet Solar in executing its R&D and manufacturing strategy."

For alfasolar, which has extensive experience in deploying solar PV projects, this supply contract is an important step in developing reliable and affordable solar farms. "We have intensively studied the developments in the field of thin film technology for some time now and we are pleased to have in Signet Solar, a strong partner who will deliver high quality products in the future," " " said Martin Denz, Managing Director of alfasolar.

About Signet Solar:

Signet Solar, Inc. is a global company established in 2006 to bring Clean Affordable Renewable Energy™ to people and countries worldwide. Headquartered in Menlo Park, California, the company has been founded to design, develop, manufacture and market thin film silicon photovoltaic modules.
