

SIGNET SOLAR GmbH PRESS RELEASE (ENGLISH TRANSLATION)

Dresden, March 03, 2008

SIGNET SOLAR SIGNS LONG TERM FRAMEWORK AGREEMENT WITH SOLEG

Thin film module manufacturer Signet Solar signs supply contract with Solar System Integrator Solog to supply silicon thin film solar photovoltaic modules

Signet Solar and Solog announced today that the two companies have signed a framework agreement for the supply of thin film modules with a total output of 12 MWp till 2010. The thin film modules supplied by Signet Solar will be installed in large solar PV projects.

"We are pleased, that Solog has placed its confidence in Signet Solar, and decided to use our modules," said Gunter Ziegenbalg, Managing Director of Signet Solar. "We believe that our thin film modules will have one of the lowest cost structure per installed watt due to the advances we are making in thin film technology and module efficiency", said Gunter Ziegenbalg.

For Solog GmbH, a global wholesaler and project developer of solar thermal and photovoltaic systems, headquartered in Zwiesel/Bavaria, this delivery agreement is the next step in developing reliable PV systems. "Signet Solar's thin film modules supplement our current product portfolio. We are pleased about this agreement. We are now able to plan photovoltaic projects on a long term basis with the required delivery security," explained Josef Weindl, Managing Director of the Solog GmbH.

About Signet Solar:

Signet Solar, Inc. is a global company established in 2006 to bring Clean Affordable Renewable Energy™ to people and countries worldwide. Headquartered in Menlo Park, California, the company has been founded to design, develop, manufacture and market thin film silicon photovoltaic modules.
